STORY OF THE ARKWRIGHT SOCIETY

SAVING CROMFORD MILLS

Did you know that every visitor plays a key role in preserving Cromford Mills? Every pound spent by our visitors helps the Arkwright Society to continue to restore and develop the site. The rescue of the mill site began in the 1970s after the site had been occupied by the colour works that manufactured pigment for paint for over 50 years. The movement to protect this historical site was driven by volunteers who successfully stopped the site being demolished, as it was in a dilapidated and derelict state.

The Arkwright Society’s tireless efforts have restored the site into the heritage attraction you see today, but we still have a long way to go to finish the full restoration. We would like to thank you for your help in preserving this amazing site for future generations.
